Subject: Call tomorrow Morning?
Date: Tuesday, April 24, 2018 10:09:56 AM

Hi Jim –

Wondering if you have some time tomorrow morning to talk with Michael and I. As you know from Michael previous e-mail we're exploring the use of a load based approach for the estuary as opposed to a concentration based approach and wanted to get your thoughts on the thresholds you developed with Rego and how we could apply them to the Great Bay Estuary.

Thanks,

Dan
